

Prandtl Colloquium

Public Lecture

A Random Walk Through
Physics To The Nobel Prize

Prof. John Michael Kosterlitz

Physics Nobel Laureate

Brown University, USA

"The talk is the story of my random walk through physics via Cambridge, Oxford, Turin and Birmingham finishing up at Brown University. I describe my very crooked path through life including physics and my other life as a mountaineer. I also include a somewhat simplified version of my prize winning work."

Wednesday, May 12th, 2021 at 17:00 CET
