

# MPI CAMPUS SEMINAR

## Reinier de Vries

Research Group Computational Biomolecular  
Dynamics, MPI-NAT

# Molecular Mechanism of Calcium Block in the MthK Potassium Channel

## Torben Sunkel

Department of Living Matter Physics, MPI-DS

# Motility-Induced Mixing Transition in Exponentially Growing Multicellular Spheroids

Wednesday, 29.01.2025, 11:00 am  
Lecture Hall, City Campus

Host: Elisa Oberbeckmann
